SUMMARY

An Architecture graduate with a passion for software development. Built on a strong foundation in design thinking and a natural eye for structure, logic, and clean design. I bring a creative yet analytical approach to every challenge, translating complex problems into well-structured solutions. Adaptable and collaborative by nature, I am committed to embracing new challenges and growing alongside the company.

DevOps/Deployment: Docker | Vercel | Railway | Render | TiDB Cloud
Full-Stack | UX/UI Design | Software Testing | Adobe CC (Photoshop,illustrator,indesign) | Autocad | Thai | English (TOEIC 920)

EDUCATION

CodeCamp Fullstack Developer #22	Jan 2026 - May 2026
Chulalongkorn University	2020 - 2025
Bachelor of Architecture Program in Architecture, Faculty of Architecture.	
ÉNSAV	Sep 2023 - Jan 2024
Exchange program at École nationale supérieure d'architecture de Versailles in France.	

PROJECTS

Pich & Go

- Built a Thailand-based hotel booking platform that covers the full hotel booking journey from browsing and booking to payment and post-stay reviews, with additional features including a favourites system and a loyalty rewards program.
- Engineered a seamless booking and payment flow using **Stripe**, with full booking history tracking and an admin panel for operational management.
- Integrated an **AI-powered chatbot** for real-time customer assistance, delivering personalized responses to guest inquiries and service FAQs.

Onlyfriendssss

- Led end-to-end design and full-stack development for a Social Community application, that facilitates real-world meetups through interest-based activity hosting. (Product Owner, Full-Stack Developer, and UX/UI Designer)
- Engineered a **real-time chat and slot tracking system** using **Socket.io**. Integrated **Mapbox** for location-based activity discovery and **Google OAuth** for secure authentication.
- Implemented a host-mediated "Pending/Approved" join system, giving hosts control over participant selection while maintaining live slot count accuracy.
- Designed a custom **Peer-to-Peer scoring system** to promote accountability and maintain a trustworthy community.

CERTIFICATIONS

Google UX Design Professional Certificate Google	2025
Google Digital Marketing & E-commerce Certificate Google	2025
Introduction to Data Analytics CU	2025
